Master Station, Rack Mount

M9100RM (p/n 44004G-01): Rack-Mount Kit, for U9100 Master Station.

Consists of 2 each 6061 aluminum mounting brackets, black anodize finish. Interior faced holes spaced to attach to corners on opposing sides of U9100 enclosure lid.

As installed on the U9100, the M9100RM is a 4U mounting kit (4 rack units), to occupy a 7 inch (177.8mm) high rail space on EIA-310 standard 19-inch rack frames and cabinets.

Individual plate dimensions (overall): 7"H x 6"W (aluminum is 0.125" thick)

Machine screws included

Endpoints, Flush-Mount

M9110FM (p/n 44004G-02): Flush-Mount Kit, for U9110 &U9111 Headset Stations, as well as U9120-W4 & U9120-W4(EU) Wireless Gateways. Fast, simple cavity-cut flush mount option.

Consists of single aluminum bracket (stainless steel, black powder-coat finish), with microcellular urethane foam gasket (1/16" thick) permanently affixed to rear of bracket. Interior faced holes spaced to attach to corners of Headset Station or Wireless Gateway. Exterior holes (6) for mounting to panel/bulkhead.

Stainless steel sealing screws for exterior holes included.

p/n 44004G-03: Mounting Gasket Kit, for Headset Stations and Wireless Gateways. Consists of foam gasket only from 44004G-02 above (omits bracket), with self-adhesive backing and sealing-type mounting screws for module.

For precision-cut flush mounting, relives space constraints of M9110FM front-facing bracket.
